School of Business and Social Science

Overview

The School of Business and Social Science (BSS) provides high quality education in business and other social sciences including economics, computer information systems, political science and international relations.

Mission

The mission of BSS is to empower the African leaders of tomorrow by providing an internationally recognized higher education through technology-enhanced, English-medium instruction in fields critical to the development of Côte d'Ivoire, West Africa, and the African continent as a whole, including business, entrepreneurship, economics, information technology, international relations, and politics.

Strategic Goals

- Deliver competitive, relevant, innovative and market-driven education in business, economics, information technology, political science and international relations
- Provide instruction and research promoting entrepreneurship, critical thinking, problem-solving abilities, global access, and community service
- Model and provide instruction in ethical business practices
- Be a think tank for sustainable solutions to the region's developmental, technological and environmental problems

Academic Programs

BSS offers the following Bachelor degree programs:

- Bachelor of Business Administration (BBA) with concentrations in Accounting, Economics, Entrepreneurship, Finance, Management and Marketing
- Bachelor of Science in Computer Information Systems (BS CIS)
- Bachelor of Science in Economics (BS ECO)
- Bachelor of Arts in Political Science (BA POL)

Minors Available

BSS offers minors in Accounting, Business Administration, Computer Information Systems, Economics, Entrepreneurship, Finance, International Relations, Management, Marketing, and Political Science.

Capstone & Internship Requirements

All Bachelor's degree students are required to complete a Capstone Project and an approved Internship Experience to ensure they are well-prepared for professional challenges and advanced academic pursuits.

CIMA Partnership

IUGB has established a partnership with the Chartered Institute of Management Accountants (CIMA) to offer professional accounting certifications, granting students access to globally recognized credentials.

School of Science and Engineering

Overview

The School of Science and Engineering (SSE) is a recently established academic institution that merges the former STEM School with newly launched engineering programs, strengthening IUGB's strategic position in science, engineering, and emerging technologies.

Vision

Starting in 2026, SSE offers a comprehensive portfolio of eight (8) Bachelor's degree programs, reflecting its commitment to academic excellence, innovation, and responsiveness to evolving demands in science, engineering, and technology.

Academic Programs

Established Programs:

- Bachelor of Science in Computer Science
- Bachelor of Science in Data Science
- Bachelor of Science in Mathematics
- Bachelor of Science in Mechanical Engineering Technology

New Programs (Spring 2026):

- Bachelor of Science in Petroleum Engineering
- Bachelor of Science in Mining Engineering
- Bachelor of Science in Artificial Intelligence
- Bachelor of Science in Computer Science – Software Engineering

Minors Available

SSE offers minors in Mathematics, Financial Engineering, Actuarial Science, Statistics, Computer Science, Petroleum Engineering, Petroleum Data Analytics, Mining Management, and Applied Artificial Intelligence.

Industry Focus

Programs are designed with strong foundations in fundamental principles, advanced knowledge, and practical skills, ensuring both academic rigor and industry relevance. SSE promotes interdisciplinary learning and equips students with complementary skills valued in today's competitive global environment.

Registrar's Office

Overview

The Registrar's Office is committed to supporting students, faculty, and staff by maintaining accurate academic records and ensuring compliance with university policies.

Services Offered

- Maintaining accurate student academic records from enrollment through graduation
- Managing registration

Career Service

University-Industry Liaison Office

Director

Belkissa Dombia serves as the Director of the Career Service at IUGB. She is committed to assisting students in their professional growth and employability, emphasizing career preparedness and effective integration into the job market.

Message from the Director

"Our students are central to all our endeavors. At IUGB, we provide them with essential skills, resources, and support to effectively pursue employment opportunities both in the Ivorian labor market and abroad. By focusing on professional growth, career readiness, and robust relationships with employers, the Career Service guarantees that our graduates are competitive, flexible, and well-prepared to thrive in the contemporary global job market."

Services Offered

Professional Development

The Career Service offers training and guidance aimed at preparing students for the professional world, including workplace readiness, professionalism, leadership, and career planning.

Career Center Support

As a central resource for career-related information, the Career Center provides access to career counseling, employment resources, and up-to-date job and internship opportunities.

Key Services

- **Resume Building** – Support in creating and improving professional resumes

-
- ● ●
 - **Cover Letter Writing** – Personalized assistance for strong, tailored cover letters
